Subject: Conversation with Hedgpeth, Zach

McClintock, Katie 7:18 AM:

i was about to type up a walkthrough of the glass facilities in case we need the records and before the details get confused in my mind. I assume you haven't had time to start that work yet, yes?

and hi, hope you had a nice weekend ;)

McClintock, Katie 7:22 AM:

oh and should i work in the format of an actual inspection report? and if so do you have one handy in word? Or should we just paste it in later

Hedgpeth, Zach 7:23 AM:
We can paste it in later. I was going to work on today, if possible... :)
Hedgpeth, Zach 7:29 AM:
I was also going to mention that I can't seem to open the email msg documents using Onedrive. I think you need the desktop outlook client to open them. Might want to convert to pdf before sharing via onedrive...
And, also...great work this weekend. You were busy! Quite interesting videos on the Kokomo facility.
McClintock, Katie 7:30 AM:

Interesting. is that usually the case for your onedrive docs?

thanks. made good use of the time ⌐ **Ex. 6 - Personal Privacy** ¬
yeah, love that you can do an inspection of kokomo from your computer!

that was the first one i searched and it got my hopes up i'd find more, but not the case

Hedgpeth, Zach 7:31 AM:
I don't know....I have been able to open word, excel, and pdf...
not sure the web app can handle others
McClintock, Katie 7:31 AM:

oh i am now realizing you were talking only about the email docs

k

could you open the press sites under press?

i'll convert the emails

Hedgpeth, Zach 7:32 AM:
yes, just the email msg docs you added to the share
McClintock, Katie 7:32 AM:

got it, i skipped over that part

Hedgpeth, Zach 7:32 AM:
um, let me check
Hedgpeth, Zach 7:34 AM:
Nope, the .url "documents" won't open. But I can open links within a word doc
McClintock, Katie 7:34 AM:

i just copied the uroboros email on in pdf. let me know if that workds

Hedgpeth, Zach 7:34 AM:
Maybe have a word doc containing the key links
Ok, I'll check
McClintock, Katie 7:34 AM:

bummer, okay. I was so excited how easy it was to put the links on and was hopeful that would work! it worked from my end

i wonder if that is an issue with the personal machine or not

Hedgpeth, Zach 7:37 AM:
Yes, I think that's it. They might work with an epa computer running windows.
McClintock, Katie 7:37 AM:

ok, i'll try to clean it up. thanks for the feeback.

Hedgpeth, Zach 7:37 AM:
Maybe you should get another guinea pig...I'll probably have more problems than others, running a personal mac.
I just tried a pdf, and could download it but not open it within the browser. But pdfs will open in the browser when they are an email attachment. Weird.
McClintock, Katie 7:39 AM:

haha. true, but maybe that makes you the perfect worst-case guinea pig

very weird!

Hedgpeth, Zach 7:39 AM:
I wouldn't worry too much about the pdf...
McClintock, Katie 7:39 AM:

k

i'll forward you eric's email. it is an interesting read.

Hedgpeth, Zach 7:39 AM:
Ok, thanks

McClintock, Katie 7:42 AM:

okay. sounds nice. do you have any fun plans?

Hedgpeth, Zach 7:42 AM:
Yes,
bummer
McClintock, Katie 7:44 AM:

oh that's right, i remember

Hedgpeth, Zach 7:46 AM:
Don't worry about the inspection reports....that's one aspect I can handle. You've done a lot of the drafting already...
McClintock, Katie 7:49 AM:

okay, i have started bullseye's now but i can stop. I was realizing the two plants were already mixing in my mind and i didn't want it to blur with spectrum too badly

Hedgpeth, Zach 7:50 AM:
Feel free to send me what you have, if more than your initial email summary. I'll roll it all together. I'm going to prioritize these above my backlog...
McClintock, Katie 7:50 AM:

k, thanks

Hedgpeth, Zach 7:51 AM:
definitely...
McClintock, Katie 7:52 AM:

did you see the email about orcco being listed in tri as a place for waste to be sent to recycling.
could be a really interesting way to track waste and to help tri do case development based on
orccos records.

Hedgpeth, Zach 8:39 AM:
add it to the project list!
McClintock, Katie 8:39 AM:

ideed, the list is a wee long

indeed

Hedgpeth, Zach 8:40 AM:
Was going to ask if you looked at the map that James made showing all glass manuf in R10. He
could probably make a similar nationwide map... Looking through it might be labor intensive,
but would probably catch any that have slipped through the cracks so far.
It's color coded by NAICS
